Education

University of California Santa Barbara

September 2023

Doctor of Philosophy (Ph.D.), Computer Science

University of Cape Town

June 2018

Master of Science (M.S.), Electrical Engineering

Research Interests

I am an experienced computer scientist with a strong background in communication networks. My career has encompassed extensive work in data science techniques and machine learning, where I have consistently applied these skills to drive data-driven solutions and insights

Professional Experience

Data Analyst II

August 2023 – current

Ookla

Seattle, Washington

- Part of the data science team working on projects ranging from anomaly detection to assessing accuracy of IP geolocation.
- Engaged with the Ookla for Good initiative to carve out proper structure to work with universities and non-profits.

Graduate Research Assistant

September 2018 – September 2023

University of California Santa Barbara

Santa Barbara, California

- Developed Broadband-plan Querying Tool (BQT) that employs web scrapers for multiple internet service providers' web services to scalably obtain broadband services offer-related information such as download speed and cost of access at any given street address in the US.
- Developed Broadband Subscription Tier (BST) methodology which is a two-stage hierarchical unsupervised classification technique to identify broadband subscription tier information from crowd-sourced network measurements. BST is able to classify subscription tiers of measurements with **99%** accuracy.
- Curated a data set of 17,000 tweets obtained from the social media platform, Twitter, and developed a natural language processing framework to detect and isolate power and communication outage-related tweets to assist first responders in the event of natural disasters. Implemented 22 different machine learning algorithms and achieved close to **90%** accuracy in performing the required classification task.

PhD Research Intern

June 2022 – September 2022

IBM

Yorktown Heights, New York

- Contributed to an Agent-Based Model (ABM) that simulates the impact of lack of good quality internet connectivity on populations of different socioeconomic statuses.
- Conducted a longitudinal analysis on a dataset of **30M** to understand how the internet quality has changed for different population groups.

Awards

- UCSB CS Department Outstanding Dissertation Award, 2023.
- UCSB CS Department Outstanding Publication Award, 2023.
- Best Paper Award winner, ACM SIGCOMM IMC'22.
- Poster runner-up, ACM HotMobile'19.

Refereed Publications

- **Udit Paul**, Jiamo Liu, Vinothini Gunasekaran, Tejas N Narechania, Arpit Gupta, and Elizabeth Belding, “Decoding the Divide: Analyzing Disparities in Broadband Plans Offered by Major US ISPs”, Proceedings of the ACM SIGCOMM 2023 (**SIGCOMM’23**).
- **Udit Paul**, Jiamo Liu, Mengyang Gu, Arpit Gupta, and Elizabeth Belding, “The Importance of Contextualization of Crowdsourced Active Speed Test Measurements”, Proceedings of the ACM SIGCOMM Internet Measurement Conference 2022 (**IMC’22**). [*Best paper*].
- Tarun Mangla, **Udit Paul**, Arpit Gupta, Nicole Marwell, and Nick Feamster, “Internet Inequity in Chicago: Adoption, Affordability, and Availability”, Proceedings of the 50th Research Conference on Communications, Information and Internet Policy (**TPRC’22**).
- **Udit Paul**, Jiamo Liu, David Farias-Llerenas, Vivek Adarsh, Arpit Gupta, and Elizabeth Belding, “Characterizing Internet Access and Quality Inequities in California M-Lab Measurements”, Proceedings of the Conference on Computing and Sustainable Societies (**COMPASS’22**).
- Vivek Adarsh, Michael Nekrasov, **Udit Paul**, Tarun Mangla, Arpit Gupta, Morgan Vigil-Hayes, Ellen Zegura, and Elizabeth Belding, “Coverage is not binary: Quantifying mobile broadband quality in urban, rural, and tribal contexts”, Proceedings of the International Conference on Computer Communications and Networks (ICCCN) 2021 (**ICCN’21**).

Invited Talks

- | | |
|--|-----------------------|
| • Improving understanding of crowdsourced measurements
<i>Google - Measurement Lab</i> | September 2022 |
| • Contextualizing crowdsourced measurements
<i>Ookla</i> | October 2022 |

Teaching

- Introduction to Computer Networks (CMPSC 176A) - Spring, 2019.
- Computer Networking (CMPSC 176B) - Winter, 2019.
- Introduction to Computer Networks (CMPSC 176A) - Fall, 2018.

Technical Skills

Languages	Python, Ruby, C/C++, JavaScript, MySQL, PostgreSQL, Bash.
Developer Tools	Google Cloud Platform, Amazon Web Services, Android Studio.
Technologies/Frameworks	Linux, GitHub, Hadoop, Spark, Tableau, Docker, Tensorflow, Pytorch.
